Fencing Project

Whittlesea/Kinglake Victoria

Following the MMM Conference Brenton Cornish, Darrell House and Stephen Cornish spent 4 days fencing in the Whittlesea/Kinglake area. Leigh Minehan was the coordinator of the Team. The tools and equipment for the job was provided and contained in a fully equipped tandem trailer towed by a Mitsubishi Triton twin cab.

The first two days were spent replacing fence posts and untangling wires and retensioning them. Approximately 75% of the posts were destroyed in the fire. Straining posts were required along with the hanging of gates.

On the third day we moved to an adjoining property to build a shelter for horses. The weather was cold and it was good once we had the shelter built to get out of the wind. We built a fence around the shed as a yard for the horses.
